Professor Gray
Dear Sir:

We enclose a copy of the circular respecting the Botany, of which we have printed 6000, to begin with, and are sending to every College, Academy, Institute, High School, Union School &c in the country - with an offer to send copies prepaid for examination wherever desired with a view to introduction. We have many testimonials, but had not room for them. You will perceive that the "Botanical Text Book" is not mentioned as one of the School Series, though it is included in our general list, and is referred to in one or two of the recommendations. It was thought, (and in this Mr Putnam concurred) that in advertising the work for schools, it would prevent confusion as to their relative character & desirableness, ~~if~~ if attention were confined to those expected to be used in schools. We are advertising the work thoroughly, and believe we shall make it go.

We send you copies of our edition - in which (in the description of plates) a singular misplacement of plates occurs in part of the edition. The "Lessons" being smaller than we anticipated, should have had thicker paper. The next edition will be much heavier, ^{the quality of this edition} better. We were disappointed in the quality of this edition. The prints show only of the Lessons, and are now getting another layer one on.

Very Truly Yours
Ivison & Phinney

The most decisive testimonials have been received from every section of the Union, and in several States and Territories they have been OFFICIALLY ADOPTED by the Superintendents of Schools. They have been approved and adopted by more than TWO HUNDRED Principals of Ward Schools in the city of New York; more than THREE HUNDRED Town Superintendents in Wisconsin; by a majority of the County Commissioners of the States of New York, Pennsylvania, and New Jersey; they are in use in more than TEN THOUSAND schools in the United States and Canada, and are selling at the rate of more than a MILLION COPIES a year. A. D. STANLEY, A. M., Prof. Mathematics, Yale College, says:—"The author has himself had much experience in the business of instruction, and has thus had occasion to know where there was room for improvement in the elementary treatises in common use. Without such experience no one can be qualified to prepare a class-book for schools." Intelligent and decisive recommendations have been given by hundreds of teachers in the Union, among whom are Superintendents of several States which have adopted an uniform series; the Educational Committee of the Illinois Legislature in 1855; Hon. S. S. RANDALL, Superintendent, New York city; HENRY KIDDLE, A. M., Asst. This is the only complete GRADUATED SYSTEM of historical text-books

ever published. They have been received with universal commendation by Teachers. Discriminating and cordial testimonials have been given by upwards of FIFTY Presidents and Professors of Colleges in different parts of the United States; by over THREE HUNDRED Principals of Academies, Institutes, &c.; and by a majority of the School Commissioners of the State of New York. The best critical reviews and journals have commended them. The *North American Review* says:—"They will prove of the highest value, at once as class-books and books of reference." The *Bibliotheca Sacra*, edited by Drs. Robinson and Park, says:—"They are accurate and spirited in statement, instructive and stimulating." The *American Journal of Education* says:—"We know of no other volumes of school history so accurate, and at the same time so full." Numerous other opinions from trustworthy sources will be found in the General Catalogue.

Fasquelle's French Series.

Fasquelle's French Course. \$1.25.	Fasquelle's Napoleon. By DUMAS. 75 cts.
Fasquelle's Key to the same. 63 cts.	Fasquelle's Chefs-d'oeuvre de Racine. 75 c.
Fasquelle's Colloquial Fr. Reader. 75 cts.	Howard's Aid to French Composition. \$1.
Fasquelle's Telemaque. 75 cts.	Talbot's French Pronunciation. 75 cts.

Fasquelle's "Method" is the only book that combines the two rival systems, the ORAL (adopted by Ollendorff, Robertson and Manesca), and the old CLASSICAL or GRAMMATICAL, and is constructed on the plan of "Woodbury's Method with the German." The Reading Books are selected from the best French authors, carefully edited, with copious notes and references, and neatly executed. The "Course" has been republished in England, and is in successful use in the schools of that country. Teachers of the French language approve this series with great cordiality and unanimity. Prof. JENKS, an eminent French teacher in Ohio, says:—"I have taught many classes in French, and do not hesitate to say that 'Fasquelle's Course' is superior to any other French grammar." Mons. TALBOT, and six other eminent teachers in Boston, considered it "the very best yet published on the subject." Messieurs MASSET & VILLEPLAINT, New York, say:—"The arrangement is systematic, and so simplified as greatly to facilitate the progress of the student." They are already the leading French text-books in the New England States, New York, New Jersey, and the North-western States, and are rapidly gaining ground. For numerous testimonials of teachers, the press, &c., see Catalogue.

This system is founded on similar principles with the preceding, and is highly popular. Prof. SCHMIDT, of Columbia College, says:—"The 'Method' is truly admirable, and with willing learners cannot fail to accomplish the most satisfactory results." Prof. TORNICELLI, of Dartmouth College, says:—"Having for the past two years used it in the College and the Female Seminary in this place, I find that nothing better can be desired. No German teacher will hesitate to adopt it in preference to all others." Rev. Dr. NAST, Editor of *Der Christliche Apologete*, Hon. R. ALLYN, Commissioner of Rhode Island, President ALLEN, Girard College,

We send the books through Hickling Swan & Brown, & have asked Mr Swan, who lives in Cambridge to deliver them— Of course we shall be happy to receive any suggestions in reference to a new edition I & P
